

The bright side of mobile delight.

Optimum food presentation plays a central role in modern catering. Depending on the concept, occasion, time, and place, a mobile food service system has to fulfil a large variety of demands.

By taking our BLANCO MIKADO buffet bar and turning it into a complete food service system with cooled, heated, and ambient modules, we can meet all of your needs.

MIKADO combines technical perfection to the smallest detail with aesthetic shapes to build a line of highly individual products. BLANCO MIKADO modules are especially flexible and mobile. They fit in perfectly just about anywhere and are thus suitable for almost any kind of use. The modules are available with a slim or full-size substructure in 3 different sizes, from 2 x GN 1/1 to 4 x GN 1/1.

innovation

Possible uses of
BLANCO MIKADO:

- hotels
- restaurants
- department stores
cafeterias
- staff restaurants
- university canteenas
and canteens
- rest homes
- hospitals
- motorway service areas
- airport restaurants
- trade fairs and party catering

Cold front

The ultimate in cool.

BLANCO MIKADO-SK 4
with accessories

Potential uses:

- breakfast bar
- dessert bar
- cake bar
- dinner bar
- midnight snack bar
- salad bar
- beverage bar

With **BLANCO MIKADO-SK** and **BLANCO MIKADO-UK**, you can present chilled food in a technically brilliant and optically elegant way. Our model UK with active convection cooling is perfect in every respect.

BLANCO MIKADO-SK — cold buffet bar with contact cooling

- especially gentle cooling
- excellent sanitary conditions
- easy and quick cleaning
- cooling range from $+8^{\circ}\text{C}$ to $+15^{\circ}\text{C}$
(The temperature is measured at the well's geometric centre.)
- cooling well with sloped bottom for optimum draining of water during defrosting

Module sizes and substructure variations

- 2, 3, and 4 x GN 1/1
- available with a slim or full-size substructure

Cold front

BLANCO MIKADO-UK — cold buffet bar with active convection cooling

- high-performance cooling system with optimum cooling results
- cold air covers the food like a blanket, providing for an even temperature distribution
- cooling range from $+2^{\circ}\text{C}$ to $+15^{\circ}\text{C}$
(The temperature is measured at the well's geometric centre.)
- optimum cleaning and hygiene through removable cooling well

Module sizes and substructure variations

- 4 x GN 1/1
- full size substructure

BLANCO MIKADO-UKM-4
with accessories

Heat miracle

Heating things up with perfect technology.

Our hot buffet bar **BLANCO MIKADO-W** is the ideal choice for keeping freshly prepared food warm under optimum conditions.

BLANCO MIKADO-W — hot buffet bar with bain-marie technology

- wells can be heated and controlled separately
- low energy requirement and quick preheating
- wells can be heated wet or dry
- optimum safety due to protected ceramic radiators

Potential uses:

- breakfast bar
- lunch buffet
- dinner bar
- midnight snack bar

BLANCO MIKADO-WS-4
with accessories

Heat miracle

BLANCO MIKADO-WM-1
with accessories

BLANCO MIKADO-WS-2
with accessories

Module sizes and substructure variations

- 2, 3 and 4 x GN 1/1 with 2, 3 or 4 bain-marie wells
- available with a slim or full-size substructure

All-rounder

BLANCO MIKADO-NM-1
with accessories

Brilliantly universal.

Our ambient buffet bar BLANCO MIKADO-N optimally complements the cooled and heated buffets. It provides enough space for everything that does not have to be cooled or kept warm.

BLANCO MIKADO-N - ambient buffet bar

- versatile use
- high quality looks
- sanitary, easy-to-clean surface

Module sizes and substructure variations

- 2, 3, and 4 x GN 1/1

available with a slim or full size
substructure

Potential uses:

- beverage counter
- coffee or tea bar
- bread or roll counter
- salad or fruit bar
- storage space for cutlery,
glasses, crockery

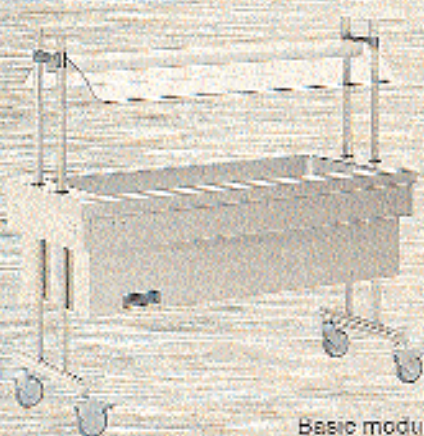

All-rounder

BLANCO MIKADO-NS-4
with accessories

BLANCO MIKADO-NS-3
with accessories

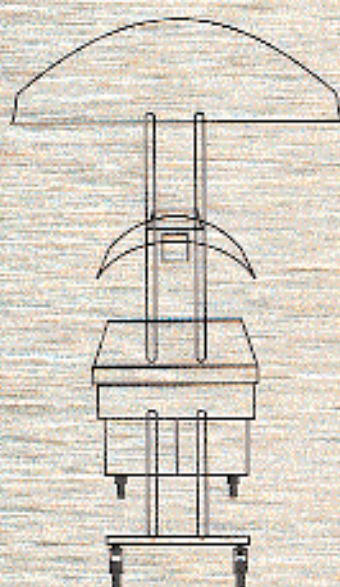

Basic module
BLANCO MIKADO SKS-1

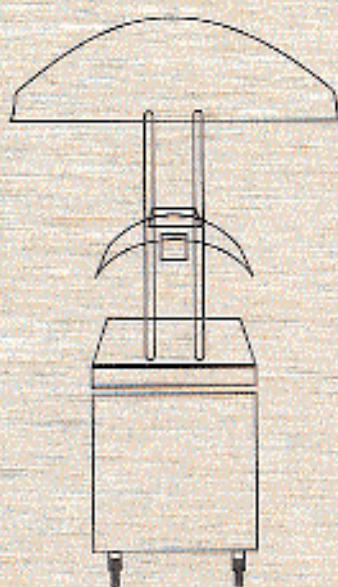

New faces wherever you look.

In our **BLANCO MIKADO** modules, cool steel and vibrant colours have formed an exciting fusion. Since it offers so many options of combining different colours and designs to create an individual atmosphere, **BLANCO MIKADO** makes eating a true experience.

In this way, **BLANCO MIKADO** integrates itself harmoniously into the design lines of the **BLANCO LAS VEGAS** and **BLANCO MANHATTAN** food service systems. The **BLANCO MIKADO** modules are available with or without a canopy and can be ordered with various different panelings.

Slim substructure

Full-size substructure

Canopy colours:

- red and white stripes
- blue and white stripes
- green and white stripes
- yellow and white stripes

For the underframe, the following designs are available:

stainless steel (basic version)

stainless steel with squares in:

red / blue / green / yellow

It's the details that count.

- continuously microlised® surface for optimum hygiene and elegant looks
- fold-down plate and tray slides and side shelves for easy manoeuvring and maximum flexibility
- tray slides mounted beneath countertop for optimum hygiene
- electronic temperature control with digital indicator mounted flush to surface for safe operation and excellent looks
- sneeze guard and shelf of tempered safety glass to avoid injuries and provide optimum safety
- countertop turned down in a 15 mm radius on long side for optimum hygiene and ergonomics
- canopy with Volero fasteners for quick and easy mounting

Accessories/options:

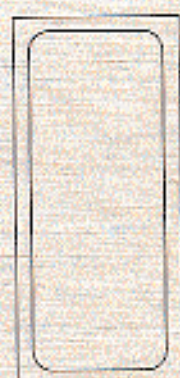

- **panelling** of stainless steel with a background of red, blue, green, or yellow
- **textile canopy** in various different designs (red and white, blue and white, green and white, or yellow and white stripes)
- **glass shelf** of safety-glass with or without railing
- **lighting shelf** of stainless steel with low-voltage halogen lamps (for BLANCO MIKADO cold and ambient buffet bars)
- **lighting and heating shelf** of stainless steel with 250-watt ceramic radiators (for BLANCO MIKADO hot buffet bars)
- **fold-down tray slide** of stainless steel round tube or Resopal with stainless steel runners, colour: stone-grey or polaris, for customer and/or operator side
- **fold-down plate slide** of Resopal, colour: stone-grey or polaris, for customer and/or operator side
- **fold-down side shelf** of stainless steel round tube or Resopal, colour: stone-grey or polaris, for right or left hand short side
- **electric condensation evaporator** (for BLANCO MIKADO-UK only)
- **stainless steel castor set**

BLANCO MIKADO-SKS

BLANCO MIKADO-SKM

DESCRIPTION:

Mobile module with one-piece cooling well. Well with cooling units on its outside and 1241 mm insulation, formed, 1/2" ball-valve drain for cleaning or draining water after using crushed ice.
Countertop of 18/10 stainless steel, height of edge: 50 mm, radius at long sides: $R = 15$ mm, short sides turned down.

- Capacity: 4 x GN 1/1 (or 3 or 2 x GN 1/1) with a max. depth of 150 mm
- Refrigerant: R 134a, GFC-free
- Operating module on long side including on-off keys for equipment and lights, electronic temperature control with digital temperature display. The temperature is factory pre-set to $+7$ °C and can be set to values between $+8$ °C and $+15$ °C.
- Ready to plug in, incl. helix cord that can be drawn out to a length of 2 m, Schuko plug
- 4 heavy-duty synthetic steering casters with stainless steel bearings, 125 mm in diameter, 2 of them with brakes
- Two stainless steel round-tube stands on either side to support a convex, 6 mm thick acrylic guard of tempered safety glass that provides for optimum hygiene
- The stainless steel lighting shell is equipped with two fluorescent tubes (2 x 18W) (modules sizes 2 x GN 1/1 only have one fluorescent tube, i.e. 1 x 18W) that display the dishes in a friendly light and provide for optimum food presentation
- Cooling well paneling: 18/10 stainless steel

* The temperature is measured at the cooling well's geometric center

ACCESSORIES / OPTIONS:

PANEL LINO:

Stainless steel with a background of coated sheet metal in red (RAL 3020), blue (RAL 5005), green (RAL 6024), or yellow (RAL 1021)

CANOPY:

Textile canopy on stainless steel supports, removable
Colours: red and white, blue and white, green and white, or yellow and white

Dimensions (LxW):

BLANCO MIKADO-SKS/SKM-4: 1440 x 1250 mm

BLANCO MIKADO-SKS/SKM-3: 1155 x 1250 mm

BLANCO MIKADO-SKS/SKM-2: 830 x 1250 mm

| Order Number | 589 940 |
| | BLANCO MIKADO-UKM-1 |

DESCRIPTION:

Mobile module with folded, „box type“ forced air cooling well with CFC-free insulation. Countertop of 18/10 stainless steel, height of edge: 60 mm, radius at long sides: R = 15 mm, short sides turned down.

The cooling well can be taken out. The evaporator beneath the well can be tilted forward for cleaning. In the underframe of this model, a refrigerating unit, a defrost part, as well as an electrical connection box are located. BLANCO MIKADO with active convection cooling is suitable for food that needs to be kept at temperatures no higher than +7 °C for hygienic reasons.

BLANCO MIKADO-UKM

- Capacity: 4 x GN 1/1, max. 200 mm deep, or up to eight salad bowls, 250 mm in diameter
- Refrigerant: R 134a, CFC free
- Operating module on long side including on-off keys for equipment and lights, electronic temperature control with digital temperature display and automatic defrosting indicator. The temperature is factory pre-set to +7 °C and can be set to values between +2 °C and +15 °C*.
- Ready to plug in, incl. helix cord that can be drawn out to a length of 2 m, Schuko plug
- 4 heavy-duty synthetic steering casters with stainless steel bearings, 125 mm in diameter, 2 of them with brakes
- Two stainless steel round tube stands on either side to support a curved, 6 mm-thick sneeze guard of tempered safety glass that provides for optimum hygiene
- The stainless steel lighting shell is equipped with two fluorescent tubes (2 x 18 W) to display the dishes in a friendly light and provide for optimum food presentation.
- Cooling well panelling: 18/10 stainless steel

*The temperature is measured in the cooling well's perimeter centre.

ACCESSORIES / OPTIONS:

PANELLING:

Stainless steel with a background of coated sheet metal in:
red (RAL 3020), blue (RAL 5003),
green (RAL 6024), or yellow (RAL 1021)

CANOPY:

Textile canopy on stainless steel supports, removable, colours: red
and white, blue and white, green and white, or yellow and white
Dimensions (LxW): 1480 x 1250 mm

GLASS SHELF:

Glass shelf of tempered safety glass with or without railing
(railing of stainless steel round tube)
Dimensions w/o railing (l xWxH): 1410 x 270 x 8 mm

LIGHTING SHELF:

Stainless steel lighting shelf with 4 integrated low voltage halogen
lamps, with 4 x 2W
Dimensions (LxWxH): 1440 x 80 x 40 mm

TRAY SLIDE:

Fold-down tray slide, stainless steel round tube, on operator and/or
customer side
Dimensions (LxW): 1553 x 235 mm, round tube diameter: 25 mm

BLANCO MIKADO-WS

BLANCO MIKADO-WM

DESCRIPTION:

Mobile module with 4 (or 3 or 2) bain-marie wells, welded in without joints, for GN containers and GN 1/1-200 or their subdivisions. The bain-marie wells are heated indirectly wet or dry, 0.7 kW per well, and are equipped with a drain. Countertop of 18/10 stainless steel, height of edge: 50 mm, radius at long sides: R = 15 mm, short sides turned down.

- Capacity: 4xGN 1/1 (or 3 or 2 x GN 1/1) with a max. depth of 200 mm
- Operating module on long side including on-off keys for equipment, lights, and infrared lamps, electronic temperature control with digital temperature display. The temperature can be adjusted continuously between +30 °C and +95 °C. The wells can be selected, controlled and switched on and off separately.
- Ready to plug in, incl. help cord that can be drawn out to a length of 2 m, Schuko plug
- 4 heavy-duty synthetic steering casters with stainless steel bearings, 125 mm in diameter, 2 of them with brakes
- Two stainless steel round-tube stands on either side to support a curved, 6 mm thick sneeze guard of tempered safety glass that provides for optimum hygiene
- The stainless steel shell for lighting and heating, which is equipped with 4 (or 3 or 2) low-voltage halogen lamps, 20W each, and 3 (or 2 or 1) ceramic radiators, 150W each, shows the dishes in a friendly light and provides for optimum food presentation.
- Panelling: 18/10 stainless steel

BLANCO MIKADO-NS

BLANCO MIKADO-NM

DESCRIPTION:

Mobile module with countertop of 18/10 stainless steel, height at edge: 60 mm, radius at long sides: $R = 15$ mm, short sides turned down.

- Size: corresponding to 4x GN 1/1 (or 3 or 2 x GN 1/1)
- Control panel on long side including lights on-off switch (rocker switch)
- 4 heavy-duty synthetic steering castors with stainless steel bearings, 125 mm in diameter, 2 of them with brakes
- Two stainless steel round tube stands on either side, height above countertop: 100 mm, to accept canopy and line anchor guard construction including lighting shelf (if desired)
- Paneling: 18/10 stainless steel

ACCESSORIES / OPTIONS:

PANEL FINISH:

Stainless steel with a background of coated steel in satin or red (RAL 3020), blue (RAL 5003), green (RAL 6004), or yellow (RAL 1021).

CANOPY:

Textile canopy on stainless steel supports, removable
Colours: red and white, blue and white, green and white, or yellow and white

Dimensions (LxW):

- RI ANCO MIKADO NS/ NM 4: 1480 x 1250 mm
- BLANCO MIKADO-NS/ NM-3: 1155 x 1250 mm
- BLANCO MIKADO-NS/ NM-2: 890 x 1250 mm

SNEEZE GUARD WITH NFON-TUBE LIGHTING SHELF:

Two stainless steel round tube stands on either side support a curved, 6 mm thick sneeze guard of tempered safety glass that provides for optimum hygiene. The stainless steel lighting shelf is equipped with two fluorescent tubes (2 x 18W) (modules size 2 x GN1/1) or only one fluorescent tube, i.e. 1 x 18W) that display the dishes in a friendly light and provide for optimum food presentation.

Dimensions (L x W x H):

BLANCO MIKADO-NS/-NM-4: 1440 x 80 x 40 mm

BLANCO MIKADO-NS/-NM-3: 1115 x 80 x 40 mm

BLANCO MIKADO-NS/-NM-2: 790 x 80 x 40 mm

SNEEZE GUARD WITH HALOGEN LIGHTING SHELF:

Two stainless steel round tube stands on either side support a curved, 6 mm thick sneeze guard of tempered safety glass that provides for optimum hygiene. The stainless steel lighting shelf, which is equipped with 4 (or 3 or 2) integrated low voltage halogen lamps, 20W each, shows the dishes in a friendly light and provides for optimum food presentation.

Dimensions (L x W x H):

BLANCO MIKADO-NS/-NM-4: 1440 x 80 x 40 mm

BLANCO MIKADO-NS/-NM-3: 1115 x 80 x 40 mm

BLANCO MIKADO-NS/-NM-2: 790 x 80 x 40 mm

GLASS SHELF:

Glass shelf of tempered safety glass with or without railing (railing of stainless steel round tube)

Dimensions w/o railing (L x W x H):

BLANCO MIKADO-NS/-NM-4: 1410 x 270 x 8 mm

BLANCO MIKADO-NS/-NM-3: 1085 x 270 x 8 mm

BLANCO MIKADO-NS/-NM-2: 760 x 270 x 8 mm

TRAY SLIDE:

Fold-down tray slide, stainless steel round tube, on operator and/or customer side

Dimensions (L x W):

BLANCO MIKADO-NS/-NM-4: 1553 x 235 mm, round tube Ø: 25 mm

BLANCO MIKADO-NS/-NM-3: 1228 x 235 mm, round tube Ø: 25 mm

BLANCO MIKADO-NS/-NM-2: 903 x 235 mm, round tube Ø: 25 mm

Fold-down tray slide, Resopal-coated multiplex plate,

colour: stone grey, on operator and/or customer side

Dimensions (L x W x H):

BLANCO MIKADO-NS/-NM-4: 1553 x 280 x 30 mm

BLANCO MIKADO-NS/-NM-3: 1228 x 280 x 30 mm

BLANCO MIKADO-NS/-NM-2: 903 x 280 x 30 mm

Fold-down tray slide, Resopal-coated multiplex plate,

colour: polaris, on operator and/or customer side

Dimensions (L x W x H):

BLANCO MIKADO-NS/-NM-4: 1553 x 280 x 30 mm
