

EA-175

water cooler  
Isselbaecher  
EA-175

Dimensions : 880 x 560 x 1120 mm  
connection : 0,75 kW - 230/1/50

- +5° working temperature at +30° ambient temperature
- capacity : 175 ltrs.
- digital electronic control
- stainless steel cooling coil
- with water stirrer to obtain homogeneous temperature of water
- water level controlled through by outside water level indicator
- water inlet 1/2"
- gravity water outlet 3/4"

execution :  
interior : stainless steel  
exterior : galvanized metal sheet
