

Hot meals in a hurry

BLANCO CASA CONTACT

BLANCO GRANDE CONTACT

BLANCO CASA CONTACT BLANCO GRANDE CONTACT

It has always been difficult to maintain the temperature of hot food during transport. There is now the perfect solution for this problem:

BLANCO CASA CONTACT and BLANCO GRANDE CONTACT.

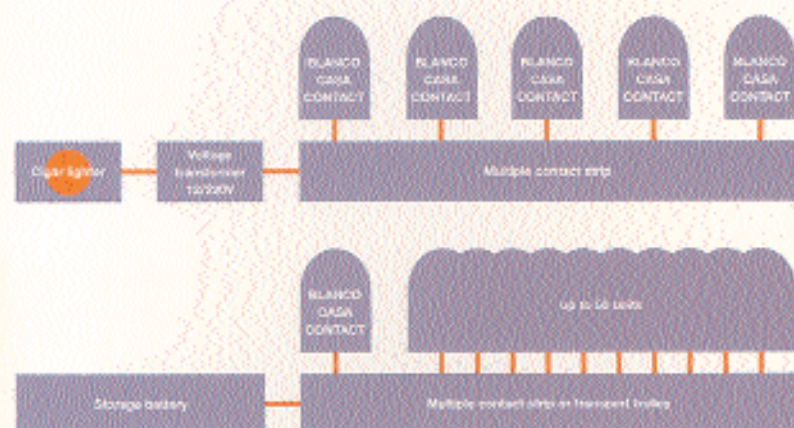

BLANCO CASA CONTACT

BLANCOGRANDE CONTACT

Meals can be heated immediately after having been portioned. Longer transport routes are possible without further heat supply. However, if necessary, it is possible to heat up to 5 portions by means of the cigar lighter of your car or up to 50 portions by means of a storage battery. When meals are delivered, they can be heated up again during the meal. This is helpful for people eating slowly. An overheating protection avoids meals drying out.

BLANCO CASA CONTACT and **BLANCOGRANDE CONTACT** are the ideal addition to your meals on wheels range and ideal for elder people staying at home, small nursing homes, offices and construction sites. The special porcelain bought with **BLANCO CASA** and **BLANCOGRANDE** can also be used.
